COMMERCIAL INTERIOR DESIGN

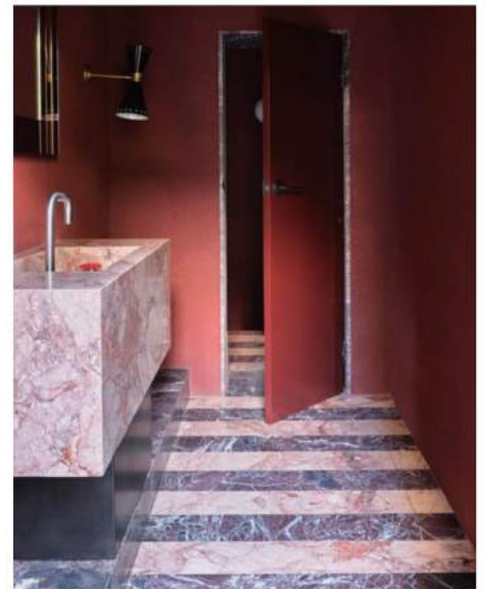

ABOUT ADAM FROM HOME

Our mission is to make **"Beautiful Living Accessible to Everyone"** and create aesthetically pleasing, inspiring spaces that reflect the personal style and vision of our clients at the best value price point.

We offer a unique blend of classic and contemporary styles continuously rotated in limited capsule collections every 4 months to put the latest trends at our forefront. Our services extend beyond just selling products; we provide comprehensive design consultations, project management, and post-project services and pride ourselves on our personalised and collaborative design processes, involving our clients at every stage to ensure their vision is fully realised with carefully crafted brand packs, samples, digital

This guide is designed to present you with an idea of the kinds of spaces possible for businesses like yours, and to share our industry knowledge in order to support you with some of the considerations that come with commercial interior design.

HOME

STAGING

IDEAL FOR:

Landlords

Property Developers

Homeowners Looking To Sell

Show Homes

Staged properties sell on average twice as fast and for 8-10% more.

Maximise the sales potential of your properties through our professional home staging service.

The goal of staging a home for sale or rent is to ensure it appeals to the highest number of potential buyers and helps it sell quickly and ideally for a higher price, we can help you highlight a property's best features, downplaying any flaws and design a perfectly packaged home to boast eye-catching imagery on your estate agents' websites, Airbnb or right move, and as a result, you'll entice more potential buyers, renters and customers eager to book a viewing.

Gives your prospective buyers and customers the experience of viewing their future home in a way that helps them to visualise their new life.

AIRBNB'S & HOLIDAY HOMES

IDEAL FOR:
Holiday Lets
Bed & Breakfasts/Cottages
Personal Holiday Homes
2nd properties
Airbnb's

Maximise your properties offering through our professional design service.

Stand out on Airbnb or booking sites by highlight your property's best features. We can declutter, clean and and rework your property to create the ideal packaged home to give your guests the ultimate staycation.

CORPORATE

& LEISURE

IDEAL FOR:

- Office Spaces
- Workplace Design
- Cafes
- Restaurants
- Function Rooms
- Receptions
- Waiting Rooms

First impressions are key - and ensure your interior scheme has an **immediate impact** on your customers as soon as they arrive.

We work closely with each client to produce bespoke, carefully managed interiors which fulfil the needs of both the client and user.

We craft immersive and distinctive spaces that prioritise guest experiences. From conceptualisation to finalisation, we refine elements such as furnishings, colour palettes, lighting schemes, mirrors and artwork, reception areas, dining settings, office and break rooms and ambiance to resonate with the establishment's brand identity while enhancing the overall user journey.

INTERIOR

BRANDING

Interior branding is so much more than adding a logo or sign - and is often the most overlooked part of creating a company brand.

What is interior branding?

Brands are encoded in physical environments - every aspect of a customer's journey within a space is them interacting with your brand - a bar, a bathroom - makes an impact on them. Interior branding is simply ensuring that your spaces are designed with your brand values in mind - it's a worthwhile investment that can help you stand out from the crowd, tell a brand story and keep a consistent customer journey throughout your space .

What should businesses consider when it comes to interior branding?

How is your brand communicated to customers in the layout, finishing materials, colour and lighting of your interiors? Is there consistency binding your identity together? All of these elements must work together to form an on-brand engaging experience.

Where is the best place to start?

As early as possible in the design process! You may want to brainstorm descriptive words for your brand, and ensure that your interior scheme could also be described with those same words. During your design consultation we can connect all these elements with you and develop ways we can bring your business identity into your design as early as possible and get on the same page as early as possible - this will inform a cohesive design direction.

OUR PROCESS

01. DESIGN BRIEF

A free initial meeting to understand your needs, and address key requirements for your project from the very beginning.

02. CONCEPT DESIGN

This will be presented in the form of sketches, layout plans, space planning, images, and basic visuals.

03. DEVELOPED DESIGN

The agreed concept is developed into working drawings, including CAD drawing packs and 3D renders of the space. These become the basis to produce a finished design.

04. SPECIFICATION & COSTS

A full and detailed costing package will be curated so you can review the breakdown of all costings complete with lookbook/style guide to visualise your finished project.

05. WORK SCHEDULE

A schedule of works is produced to accurately forecast the operations of your project.

06. PROCUREMENT

In alignment with the agreed design specification and works programme, all orders are placed.

07. FITTINGS

We will implement the full design scheme, working alongside various trades to achieve the highest quality finish. This also allows seamless installation of all furniture and design items.

08. PROJECT MANAGEMENT

We offer an onsite project management service to ensure the programme is running on time, on budget and to meet your exacting standards. Delivery of all goods is closely monitored throughout and includes styling and furniture assembly.

09. HANDOVER

The project will be signed over to you after a final review and only when our exacting standards are met.

ON A MISSION TO CREATE

SUSTAINABLE SPACES

ADAM
FROM
HOME

Ensuring the spaces we create are designed with sustainability right at the heart means we can take accountability for our environmental impact and aim to limit it as much as possible.

USE WHAT YOU ALREADY HAVE

We will never tell you to strip out everything you already have and to replace with brand new, this is environmentally damaging in itself.

Sustainable interior design should focus in large part on working with what is already available, and our innovative design team can work to incorporate those existing materials creatively, or advise you on how to enhance those spaces sustainably and cost effectively.

SUSTAINABLE SUPPLIERS

Where possible we source beautiful products made from recycled plastics, glass and wood, and sustainable fabrics made from ocean waste. We work hard to ensure all goods purchased, at the end of their life, can be truly recycled; either up-cycled into a new product, or returned to the earth through safe and non-toxic decomposition.

WHO WE ARE

MEET THE TEAM

ADAM SPAUL FOUNDER & DIRECTOR

Adam is the Founder and Director of Adam From Home.

He has 8 years experience in the creative industry and started Adam From Home in 2020 with the vision of making unique and stylish products more accessible and affordable and finding a way to make Interior Design a more accessible service to everybody.

BEN COLCLOUGH COMMERCIAL MANAGER

With 5 years of customer service experience Ben has been nominated for a Norfolk Small Business Award in customer service and puts love and care into everything he does for our clients and customers.

He thrives in planning and organisation and is passionate about bringing sustainability & wellness into every aspect of design.

WHAT WE DO

Our commercial interior design, furniture supply and full onsite fit-out services include liaising with all contractors and suppliers, and project management.

This allows you to have one point of contact at Adam From Home, who will manage the onsite team - ensuring your scheme is implemented on time and to the highest level of detail.

We are passionate about what we do and work closely with each client to produce bespoke, carefully managed interiors that fulfil the needs of both the client and user.
